The SkinMedica® Vitalize Peel® or Rejuvenize Peel™

Before Vitalize Peel®

After Series of 3 Vitalize Peels®

These peels are particularly effective for patients seeking improvement in skin texture and tone. The Vitalize Peel® is great for diminishing mild to moderate hyper pigmentation, acne, acne scarring and melasma. This peel is done in a series of 3 peels at 3 weeks apart. The Rejuvenize Peel™ is great for moderate to severe hyper pigmentation, acne, acne scarring and melasma. This peel is done in a series of 3 peels at 4 weeks apart. These peels also stimulate collagen production in the cells underneath, and can give you a dramatic result when done alone or in conjunction with non invasive laser treatments. They also benefit your skin after surgical procedures to help maintain long lasting results.

Your skin will look and feel healthier with noticeable results and minimal to no "down time."

HydraFacial and Facials

Pamper yourself with our HydraFacial MD™.

The “HydraFacial” treatment is the newest advance in non-laser skin resurfacing. HydraFacial is the only hydradermabrasion procedure that combines cleansing, exfoliation, extraction, hydration and antioxidant protection simultaneously, resulting in clearer, more beautiful skin with no discomfort or downtime. The treatment is soothing, moisturizing, non-invasive and non-irritating. The HydraFacial treatment improves the appearance of fine lines, wrinkles, congested and enlarged pores, oily or acne-prone skin, hyper pigmentation and brown spots.

Extractions with HF or Blu-U Photodynamic Therapy

This is effective for moderate to severe inflamed acne. This treatment involves facial cleansing with our top of the line products. Next a facial steamer is used to soften skin prior to manual extractions. Extractions are performed to remove any surface comedones (blackheads) and pustules (p-acne). You will then be treated with the High Frequency or Blu-U device. Both are effective, safe and painless. High Frequency™ is used to treat (zap) individual acne breakouts by destroying the bacteria, and clearing up complexion in a few days. Blu-U Photodynamic Therapy is a 15 minute treatment that covers a bigger surface area and destroys p-acne bacteria.

Endermology

Endermology is the worlds first patented technology, which is FDA-approved to temporarily, yet effectively reduce the appearance of cellulite, increase circulation, relieve minor muscle aches and pains. The Endermology experience is a comprehensive, non-invasive approach for the whole body using a patented technique proven save and effective.

Latisse
Bimatoprost ophthalmic solution 0.03%

~ 1.5 MILLION BOTTLES SOLD

LATISSE® WELCOMES CLAIRE DANES.
SEE THE LONGER, FULLER, DARKER LASHES

.....1 treatment \$225 full body

Personalized FacialsRange \$75-\$100

Pamper yourself with our SkinMedica Facials. Robbin will do either your face or your back. Great for relaxation or to target your special skin care needs. All facials can be personalized to treat oily, acne, or exceedingly dry skin. Frequently a combination of facials and peels give you the maximum effect.

Waxing (facial only)\$15 per region \$20 for Brow Shaping

Waxing your brow gives great definition to your eyes. Our waxing system is a unique process that does not pull on your skin as much as other waxing processes do.

Eyebrow or Eyelash Tinting\$35

Tinting adds depth and a semi perimeter color to lashes and brows. Great for people who are active outdoors, those who want to save time or who have constant smudging of mascara. Works great with Latisse® users!!

Acne Treatment with Extraction..... \$50

Schedule an appointment with Robbin for cleansing, steaming & manual extractions so that you do not damage or scar your skin. Followed by High Frequency and Blu-U blue light anti bacterial treatment

Acne Treatment with out Extraction..... \$25

High Frequency and Blu-U blue light anti bacterial treatment that gets rid of bacterial deep in the breakout.

Endermology.....\$95

.....plus Body Stocking \$42.68
